

# Air Grinders with Collets

Inline Design - Power Output: 150 W / 270 W (.20 / .36 HP)

- High power output at a low weight
- Ergonomic
- Highly durable

Small grinders with collets are especially well suited for the precision grinding with grinding tips and for fabricating using carbine cutters.

Ergonomic, low-weight and suitable for numerous application cases - in the tool-, die-, and mold making or in small industrial areas.

These grinders efficiently allow the fabrication of plastics, metals and casting - even when using these tools in 24/7 operations.

## The best tools for efficient material removal

#### High power output at a low weight

All DEPRAG Industrial grinders excel through their compact design while simultaneously achieving a high power output. Especially when used with carbide cutters, these tools offer a powerful solution.

#### Ergonomic

The ergonomic design of the handle and the surface treatment of the grip allows a continued and low-fatique operation.

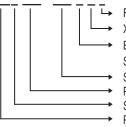

#### Highly durable

The robust construction assures a high longevity of your tool - even when used in continued- and mass-fabrications.

# TYPE KEY

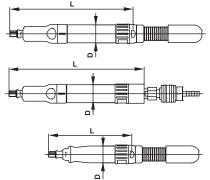

## GDS 027 - 320 B X F

- F = Frontal Exhaust (partial), without exhaust hose
- X = Safety lever, Y = Twist Valve
- B = Basic Design
- S = Short Design
- Speed x 100 [min<sup>-1</sup>], 320 = 32 000 min<sup>-1</sup>
- Power x 10 [W], 027 = 270 W
- S = Straight Pneumatic Die Grinder

# **SPECIFICATIONS - GRINDERS WITH COLLETS - INLINE DESIGN**

## Design

Basic Design B, Twist Valve

Basic Design with Frontal Exhaust B.F, Twist Valve

Short Design S, Twist Valve

Any model can be supplied with a lever-start instead of a twist-start.
