

Air Grinders with Collets

Inline Design - Power Output: 700 W (.94 HP)

- high power output at a low weight
- ergonomic
- highly durable
- efficient

Our powerful die-grinders are designed to fulfill the highest quality demands when they are used on industrial applications.

The integrated, reaction-fast speed regulator, which keeps the speed steady under load, allows for an optimal metal cutting.

The robust grinders may be used with grinding-tips or carbide burrs to fabricate plastics and metals in foundries, in the tool- and die making industry or in the precision fabrication industry. These grinders are well-suited for the deburring and polishing of welding seems and for the processing of casted parts. The grinders that feature an extended spindle, are ideal for the cleaning of pipes and for the grinding in hard-to-reach areas. Please Note: when using these grinders for pipe-cleaning, attach lamellar sanding discs or wire brushes only! We offer die grinder with reduced speed especially for the grinding or polishing with grinding or polishing disks.

The best tools for efficient material removal

High power output at a low weight

All DEPRAG Industrial grinders excel through their compact design while simultaneously achieving a high power output. Especially when used with carbide cutters, these tools offer a powerful solution.

Ergonomic

The ergonomic design of the handle and the surface treatment of the grip allows a continued and low-fatique operation.

Highly durable

The robust construction assures a high longevity of your tool - even when used in continued- and mass-fabrications.

Efficiency

DEPRAG INDUSTRIAL air grinders are equipped with a speed regulator, which keeps the speed of the tool constant, even if the tool is operated at maximum load. The speed-regulator allows the adjustment of the peripheral speed and this allows the maximum speed potential to be used for any given application. The robust construction of the grinder assures a high lifespan even in continued operations.

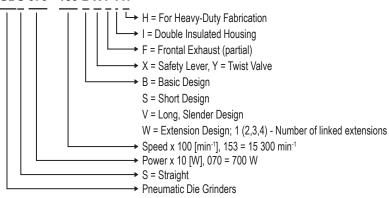

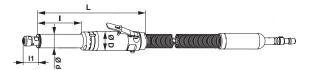

TYPE KEY

GDS 070 - 153 B X F I H

SPECIFICATIONS - BASIC DESIGN - 700 W (.94 HP)

Basic Design - for the grinding with grinding tips or for the milling with grinding inserts (carbide cutters) for all industrial areas (foundries, automotive industry, etc.). Our air grinders are well-suited for the treatment of plastic and metals. Equipped with and integrated speed regulator.

Safety Lever

Also with Twist Valve Supplied.

SPECIFICATIONS - EXTENSION DESIGN - 700 W (.94 HP)

The extended grinders are ideal for the cleaning of pipes and the grinding in hard-to-reach areas. PLEASE NOTE: When using these grinders for pipe-cleaning, attach either lamellar sanding discs or wire brushes only!

The modular construction of our grinders allows to extend the spindle from 400 mm (Model W.I) to 1200 mm (Model W4.I). Adapter extension length is 200 mm.

Equipped with an integrated speed regulator.

Safety Lever

Also with Twist Valve Supplied.

Standard Equipment:	Part Number
Collet Ø 6 mm	315018
Spanner 15 mm	800409
Spanner 22 mm	800416

Optional Accessories:	Part Number
Collet Ø 8 mm	315073
Collet Ø 9 mm	315089
Collet 3/16"	315088
Collet 1/4"	315074
Collet 5/16"	315090

SPECIFICATIONS - HEAVY DUTY DESIGN - 700 W (.94 HP)

The grinder are especially designed for heavy-duty operations. We offer these grinders in basic, short, long and slender design. Equipped with an integrated speed regulator.

These models differentiate themselves from the existing models GDS 070-190 SXI,BXI,VXI mainly by the reinforced bearing support, resulting into longer duty cycles and higher load capacity of the bearings. There has also been some small changes to the spindle length.

			Basic Design	gn	Short Desig	n	Long, Slend	ler Design		
Heavy duty design BH	Model		GDS 070-190BXIH		GDS 070-19	0SXIH	GDS 070-190VXIH			
Safety Lever	Part No	Part No.		6060989A		6060983A		6060984A

Collet 3/16"	315088
Collet 1/4"	315074
Collet 5/16"	315090

We offer also stationary grinders. These grinders were specially developed for the stationary grinding or for assembly with another equipment into the industry environment - even when used in continued operations.

Actual and detailed information may be found on our web side www.deprag.cz or in our catalog DCZ 10165.
